

**1595NTLTR\*CC4**

**Tamper Resistant Nightlight/GFCI Combo**

**Ensures Safety & Convenience**

- Sealed nightlight with Lexan® lens prevents tampering
- LED illumination with a 20+ year life expectancy means no bulbs to change
- Photocell turns nightlight ON in the dark — OFF in the daylight
- Automatic shutter system prevents young children from inserting common household objects, but releases to accommodate plugs.

*relace \* with your selection of white (W), light almond (LA) or ivory (I)*

**RT24\***

**Astronomical Timer**

**Countdown to Energy Savings**

A smart technology at its smartest — A programmable 24-hour timer, that calculates sunrise and sunset times based on longitude and latitude and adjusts the lighting accordingly to conserve energy and save money.

*relace \* with your selection of white (W), light almond (LA) or ivory (I)*

**TM8HWLTR\*CC6**

**Tamper Resistant Hallway Nightlight/Receptacle**

P&S Nightlight Combination adds a smooth, sealed LED nightlight to a standard outlet with Automatic shutter system that prevents young children from inserting common household objects, but releases to accommodate plugs . The nightlight turns on automatically in the dark, and off automatically when it isn't needed. Extremely low energy consumption — and no bulbs to change!

*relace \* with your selection of white (W), light almond (LA) or ivory (I)*

**TMHWLCC4**

**Full Length Night Light**

For those areas that need added illumination. The nightlight turns on and off automatically through the use of a built in sensor. An LED with a 20+ yr life expectancy means no bulbs to change.
